* Both direct and indirect | 1,036 Elderly benefitted
The Overall Sustainable Goal:

Because the distributions are one-off food distributions, meaning the beneficiaries will consume the food and then there will be no long-lasting benefit unless more distributions are organized. Working in the local communities and working with CBO’s over a period of time builds up a level of trust between Penny Appeal, the partner and the beneficiary communities. This opens up possibilities for extension of other projects in the vicinity and the development of partnerships for more sustainable Feed Our World projects.

This is the continuous objective of the Feed Our World Appeal to enable people to live and work for themselves in their immediate environments and provide the tools, training and raw materials to help people lift themselves out of food poverty.

Ramadan Food Pack Schedule

Food distributions in Ramadan are a significant part of the FOW program. We worked with 21+ organizations in 30 countries to provide food to the world’s poorest regions during the Muslim Month. Here’s how partners like ILM implemented deliveries:

- **Two months before Ramadan** – needs assessment, market assessment and implementation plan
- **One month before Ramadan** – selection and allocation of area and beneficiaries, confirmation of distribution method
- **One Week Before Ramadan** – food packs will be distributed based on most-needed basis
- **One month after Ramadan** – project completion report should be submitted
## Guinea Bissau

### Objective
Provide basic food items to needy Muslims during Ramadan 2018 by distributing 148 food packs either small or large in size

### Locations
Farim, Bolama, Cachau, Catio and Mansaba
